I have been making a living taking people fishing since 1995 and try my best to make every fishing experience an enjoyable one. I am willing to take the time to explain why and what I am doing if you would like. I encourage you to help out if you would like to set some of the lines and net fish, if not that is fine. I look forward to a having you back aboard again. I cannot control if the fish bite or the weather but I am working on that.
